

GIDI-GIDI

The Church here is also going on fine, but membership commitment is gradually reducing due to factors of life. Many prioritize their personal interest over the kingdom goals; they just want to be Christians without obligations. Despite all these challenges, God is still helping us out. Few have trained in the Bible institute and have been of great help to us in the congregation. Please continue to remember this congregation in your prayers.

BAKIN-KOGI

This is where I regularly worship. We started very small but honestly, we are growing very fast both spiritually and numerically. We now have an average number of 21 members. This congregation is slowly becoming like Akwanga in diligence and growth. There was no baptism this period but every worship day, we have people visiting and quietly admiring the worship pattern they have come to see. Our earnest prayer and desire is for them to see the light and come to the knowledge of the truth.

PERSONAL CONCERN

This session is just appreciation, appreciation and appreciation. Seriously, I can't really convey all my excitement in this piece. My cry and pains, you did not turn deaf ears to. My long-awaited support that has been my trouble, you have finally settled. All my debts, I have cleared; my spoilt bike, I have fixed; my drugs, I have obtained; my family financial issues, I have resolved. Now I am better positioned to help others who may need my support in any little way. May the Lord reward you greatly, that your labour in His vineyard should not be in vain, because you will not lose heart. Amen!

Yours in Christian Love

Daniel W. Gabi
